# Build Your Growth Story Through Franchising

## Understanding Tomorrow's Business today!

I have been a franchise evangelist in India for nearly 17 years now, and till date I have only seen growth in the business. Growth has taken place year-on-year despite whatever has happened in the national and international economic scene. Predictions by leading research agencies also confirm that the coming years will continue to witness further growth. The reason is that the scope for additional growth for the franchise business in India is huge, as we still are a minute fraction of the GDP. The growth in the franchise business continues to be on riding on the backs of the services and retail businesses.

This is an exciting time for entrepreneurship in India. Many more people are taking up the path of starting their own business. The youth, women and even professionals are looking for better growth opportunity. Aspirant entrepreneurs are taking up franchise opportunities by buying into an established business instead of taking the extra risk of an independent start-up. At the same time consumerism is deepening its presence in the country. The preference for high value brands is spreading rapidly. Modern retail is struggling to establish the last mile connect with their customer, while maintaining efficiencies in operations. The trend of increasing entrepreneurship and a maturing consumer market is feeding into each other. A franchise network has proven to deliver growth to brands as entrepreneurs in the network have proved to be more responsive to consumer needs and changes in demand and are better positioned to address these changes rapidly in their small businesses locally and with the assistance of their franchisor partners.

This is why for the foreseeable future the franchise industry will continue to see unparalleled growth as it taps the energies of rising entrepreneurship for the benefit of the consumption market.

The Franchise and Retail Opportunity (FRO) event has now completed 68 successful editions. In the year 2014 FRO will continue to facilitate start-ups and businesses in the growth-stage to partner with the entrepreneur-community across the length and breadth of India. The FRO exhibition will bring franchisors in direct access with potential franchise buyers from across every single region of the country. The franchise community looks forward to FRO events as an opportunity to meet and interact, investigate all manner of opportunities, including single units, area developments and master franchises.

I look forward to your participation in 2014 at FRO event.

***Happy Franchising***
